**For Immediate Release:**

January 3, 2002

### **Community Advisory Board Meeting to Focus on the Peer Review Report**

The monthly meeting for the Community Advisory Board (CAB) for Nevada Test Site programs is scheduled from 6-9 p.m., Wednesday, January 9, 2002. The meeting will take place in room 4401 at the Grant Sawyer State Office Building (555 E. Washington Avenue, Las Vegas, NV).

The public is invited to join the CAB in a discussion concerning the recent publication of the technical peer review report on the *Strategy for Remediation of Groundwater Contamination at the Nevada Test Site*. Members of the review panel from the American Society of Mechanical Engineers will be present to answer questions concerning the technical peer review report. The report is available through the American Society of Mechanical Engineers. A reference copy is available in the Public Reading Facility at 2621 Losee Road, North Las Vegas, NV.

The Board is comprised of a volunteer group of citizens who provide Nevada Operations Office's Environmental Management Program with informed recommendations on environmental activities at the Nevada Test Site. The CAB typically meets on the first Wednesday of each month and is chartered under the U.S. Department of Energy's Environmental Management Site Specific Advisory Board.

All Community Advisory Board meetings are open to the public and are encouraged to actively participate. For additional information on Community Advisory Board meetings or activities, visit the CAB Web site at <http://ntscab.unlv.edu>.
